### Harvia 16 and 22

Fresh and timeless design – the new Harvia 16 and 22 stoves are of strong build, and they make for an excellent sauna bath in small and medium-sized saunas.

### Harvia 20 LS Pro and 20 RS Pro

New woodburning stoves in the most popular cottage sauna size class – with water container for efficient heating of sauna water. The Harvia 20 LS Pro has the water container on the left side, the 20 RS Pro on the right side.

The instructions for installation and use of all the products can be found at [www.harviasauna.com/manuals](http://www.harviasauna.com/manuals).

## Natural well-being.

Harvia brings quality and comfort to sauna bathing without compromising the long traditions of Finnish sauna. You can just lie back and enjoy the natural well-being of a Harvia sauna. In a Harvia sauna the essential elements of nature – wood, stone and water – combine to create a relaxing oasis of well-being.

The soft warmth of sauna offers you several health benefits: improved blood circulation and immunity, relief from muscle pain and headache, stress relief, and physical and mental relaxation.

Harvia's woodburning products give warmth and enjoyable moments, cherishing traditions. Long experience, Finnish sauna traditions and continuous, well-planned product development can be felt in every product.

We value nature and its diversity. Therefore we want to take care of its purity by developing as environment-friendly products as possible. It is easy for you to choose a product that suits your needs in the versatile woodburning product range.

Harvia products are designed and manufactured with the environment in mind. Sustainable choices are not only good for the environment, they are also good for people. The Harvia Cares symbol demonstrates that Harvia is committed to sustainable development.

The material of this brochure has also been selected with respect for nature.

**HARVIA** Natural well-being.

## Harvia woodburning stoves

Wood is a natural choice – it prepares your senses for enjoyment. Relax in the embrace of your sauna, and experience the true spirit of the sauna bath. Harvia has accrued 60 years of experience about how to provide pleasant and sufficient heat. Cherishing the Finnish sauna tradition, elegant design, and materials of high quality make the woodburning stove of Harvia the heart of your sauna.

Harvia stoves have a cast-iron fire grate and glass door. Two separate burning channels guarantee a fast heating of the sauna and a pleasant bath. The stoves must be installed on a chimney with the temperature class T600.

From Harvia's extensive product range, using the Stove selection guide, you can choose the Harvia stove that suits your sauna best and that will guarantee you Finnish sauna enjoyment year after year. Harvia offers water heaters, cauldrons, protective sheaths, steel chimney, and smoke pipes, as well.

An example of the air and fire circulation of a Harvia stove

1. Incoming air and fire circulation during the burning process.
2. Air heating between the body and the outer casing.
3. Air flow through the stone space.

### ! Stove selection guide

A properly built sauna room is a very important factor in getting the most out of your woodburning stove. Stove power should be selected on the basis of the size and material of the sauna.

- If the sauna has stone, glass or similar non-insulated surface, the stove power requirement is increased by 1.2 cubic meters for each square meter of such surface.
- If the interior wall of the sauna room is non-insulated log, multiply the cubic volume of sauna by 1.5.
- Remember that the walls and ceiling in particular need to be very well insulated.
- You should also pay attention to sauna room ventilation. Efficient air circulation ensures that the bathers can enjoy clean air that is easy to breathe.

## Harvia M1 and M3

A stylish stove for smaller saunas.

Harvia M1/M3 has a classic design and is suitable for smaller, wood-heated saunas. It turns a sauna bath into a pleasurable experience and adds a touch of traditional sauna atmosphere. The even heat and efficient air circulation guarantee an enjoyable bath.

The Harvia M3 comes equipped with a glass door, allowing the warm glow of the fire to complement the sauna atmosphere. Harvia M1 does not have a glass door. The colour of the stove is elegant graphite black and it has a stainless steel air-flow spoiler. The stove can be equipped with a pipe model water heater.

The recommended size of the sauna room is 4.5–13 m<sup>3</sup> and the maximum amount of stones is 30 kg.

Harvia M1

Harvia M3

## Harvia 16

A sauna stove with fresh design and modern.

The Harvia 16 is the source of glowing heat and magnificent bath for smaller saunas. The simple, sculptural design adds timeless style to the sauna. The cast-iron glass door allows the warm glow of the fire to complement the atmosphere. The Harvia 16 is slightly bigger and more powerful than the Harvia M3. The stove can be equipped with a pipe model water heater. The outer casing of the stove is painted graphite black.

The recommended size of the sauna room is 6–16 m<sup>3</sup> and the maximum amount of stones is 36 kg.

Harvia 16

## Harvia 20 Pro

The source of strong heat.

Harvia 20 Pro gives a good hot bath in medium-sized saunas. It has a big stone space and an air-flow spoiler made of stainless steel. Through the cast-iron glass door the warm glow of the fire adds to the sauna atmosphere. The sturdy 10 mm fire space cover ensure durability. The adjustable legs make the stove easy to place in the sauna and it can be equipped with a pipe model water heater. The outer casing of the stove is painted graphite black.

The recommended size of the sauna room is 8–20 m<sup>3</sup> and the maximum amount of stones is 40 kg.

Harvia 20 Pro

## Harvia 20 ES Pro

A favourite for cottage saunas.

A popular choice for cottage saunas, Harvia 20 ES Pro is a practical stove that provides a good, hot sauna bath. The 20-litre water container at the front of the stove is easy to use. Water will be heated by the time your sauna is ready for bathing. There is a water faucet on the side of the stove and it can be placed on the left or right side. Through the cast-iron glass door the warm glow of the fire adds to the sauna atmosphere. The sturdy 10 mm fire space cover ensure durability. The stove features a big stone space and an air-flow spoiler made of stainless steel. The stove is also equipped with adjustable legs. The outer casing of the Harvia 20 ES Pro stove is painted graphite black. Harvia 20 ES Pro S stove's outer casing is stainless steel. The recommended size of the sauna room is 8–20 m<sup>3</sup> and the maximum amount of stones is 40 kg.

Harvia 20 ES Pro

Harvia 20 ES Pro S

## Harvia 20 LS Pro and 20 RS Pro

Woodburning stoves in the most popular cottage sauna size class – with water container

Harvia 20 LS Pro and 20 RS Pro are practical stoves that provide a good, hot sauna bath. Water will be heated in the 30-litre water container by the time your sauna is ready for bathing. Through the cast-iron glass door the warm glow of the fire adds to the sauna atmosphere. The sturdy 10 mm fire space cover ensures durability. The stove is also equipped with adjustable legs. Harvia 20 LS Pro has the water container on the left side, while 20 RS Pro has it on the right side. The recommended size of the sauna room is 8–20 m<sup>3</sup> and the maximum amount of stones is 40 kg.

20 LS Pro

20 RS Pro

## Harvia Premium and Premium VS

Modern design for a wood-heated sauna.

Harvia Premium is a stylish stove for medium-sized saunas. The outer casing of the stove is stainless steel. The stove can be equipped with a pipe model water heater. The adjustable legs make the stove easy to place in the sauna. Through the cast-iron glass door the warm glow of the fire adds to the sauna atmosphere. The sturdy 10 mm fire space cover ensures durability. Harvia Premium VS is a good choice for a cottage sauna, as it has a fair-sized water container (30 l) by the side of the stove. Water heats up at the same time as the stove warms the sauna ready for bathing. Water faucet is in the front and it is possible to change the handedness of the water container. The recommended size of the sauna room is 8–20 m<sup>3</sup> and the maximum amount of stones is 40 kg.

Premium

Premium VS

## Harvia 22

A sturdy sauna stove with fresh design.

The Harvia 22 is the source of glowing heat and magnificent bath for medium-sized saunas. The simple, sculptural design adds timeless style to the sauna. The cast-iron glass door allows the warm glow of the fire to complement the atmosphere. The adjustable legs make the stove easy to place in the sauna and it can be equipped with a pipe model water heater. The outer casing of the stove is painted graphite black.

The recommended size of the sauna room is 8–22 m<sup>3</sup> and the maximum amount of stones is 40 kg.

Harvia 22

## Harvia 26 Pro

Top-class bathing.

Harvia 26 Pro brings top-class bathing to larger saunas. The large number of stones ensures good heat even if the fire dies down. The stove features a cast-iron glass door and an air-flow spoiler made of stainless steel. The adjustable legs make the stove easy to place in the sauna. The stove can be equipped with a pipe model water heater. The outer casing of the stove is painted graphite black.

The recommended size of the sauna room is 10–26 m<sup>3</sup> and the maximum amount of stones is 50 kg.

Harvia 26 Pro

## Harvia 36

Great baths for great crowds.

Harvia 36 is a power stove for big saunas. Its characteristics provide enough power to make bathing comfortable, even for a big crowd. The large number of stones means that you can spend more time bathing in the sauna. The heat won't run short, even if the fire dies down in the stove. The air-flow spoiler is made of stainless steel. The adjustable legs make the stove easy to place in the sauna. The outer casing of the stove is painted graphite black. It can be equipped with a pipe model water heater.

The recommended size of the sauna room is 14–36 m<sup>3</sup> and the maximum amount of stones is 60 kg.

Harvia 36

## Harvia Duo

More atmosphere.

Harvia Duo is a combination of woodburning sauna stove and fireplace. Heat your sauna to bathing temperature – and enjoy the warmth of the fire at the same time. Duo enhances the traditional spirit of the sauna and gives a good, hot bath.

Harvia Duo is also very durable. The outer casing of the stove is made of high-quality stainless steel. The stove has a large, stylish steel-framed glass door. The stove can be equipped with a pipe model water heater.

Two different powers are available: Harvia 20 Duo: the recommended size of the sauna room is 8–20 m<sup>3</sup> and the maximum amount of stones is 40 kg. Harvia 36 Duo: the recommended size of the sauna room is 14–36 m<sup>3</sup> and the maximum amount of stones is 60 kg.

Harvia Duo 20

## SL and Boiler stoves

Ease of use reaches a new level.

The SL models are designed for people who want to conveniently heat their sauna from another room or outside the building. The opening direction of the door can be changed, making these stoves even easier to use. SL and Boiler stoves provide great bathing in small and medium-sized saunas. The boiler stoves can be equipped with a separate water tank and protective sheaths.

All Harvia stoves for through-the-wall heating and Boiler models are equipped with a glass door to give that special feeling. The adjustable legs in 20-series make it easy to install the stove in a straight position despite floor inclination.

Harvia 20 SL

Harvia M3 SL

## Harvia 50

The king of public saunas.

Harvia 50 is the king of public saunas, and designed for really large groups. The huge amount of stones releases heat evenly into big spaces. This stove offers bathing in the true spirit of traditional Finnish sauna.

Harvia 50 is designed for use in very large public saunas. The stove is graphite black.

The recommended size of the sauna room is 20–50 m<sup>3</sup> and the maximum amount of stones is 120 kg.

Harvia 50 stove has no CE certification.

## Harvia Classic Top

A woodburning stove with a cover.

Harvia Classic Top stove takes sauna-bathers back 60 years to the time when the first woodburning Harvia stove was manufactured. Like the first Harvia stove, the Classic Top also has a cover.

The outer casing of the stove combines stainless steel with thick, painted graphite black iron. The large stone surface area of the stove provides a festive sauna bath experience. Through the cast-iron glass door the warm glow of the fire adds to the sauna atmosphere. The opening direction of the door can be changed. The stove can be equipped with a pipe model water heater. The adjustable legs make the stove easy to place in the sauna. The stoves are available in two models: Classic 280 Top and Classic 400 Top Duo. You can heat the Duo model easily from another room and enjoy a pleasant fire while heating the sauna.

Classic 280 Top: the recommended size of the sauna room is 10–26 m<sup>3</sup> and the maximum amount of stones is 60 kg.

Classic 400 Top Duo: the recommended size of the sauna room is 14–36 m<sup>3</sup> and the maximum amount of stones is 80 kg.

### Adjust the sauna bath according to your individual taste.

The heat is soft thanks to the cover-regulated air circulation. When the cover is down, the stones heat up quickly but the temperature in the sauna does not rise too high. The stove only starts to heat the air at full capacity when the cover is opened. Throw water on the stones and enjoy the soft heat – in a desired temperature.

If the cover is open during the entire heating, the stove warms up and heats the sauna like a conventional woodburning stove.

Classic 280 Top

Classic 400 Top Duo

#### Cover closed.

The stones heat up quickly but the temperature in the sauna does not rise too high.

#### Cover open.

The air flows through the stove and heats the air in the sauna efficiently.

## Harvia Legend series

The Harvia Legend woodburning stoves give you the ultimate sauna experience. The black steel frame has a mighty amount of stones inside, and as they heat up, you get a magnificent sauna bath even at a lower temperature. The large number of stones ensures good heat, even if the fire dies down in between.

The Legend stoves have a modern fire grate structure that enables the wood to burn more efficiently and cleanly. The smaller than usual safety distances from the side and back surfaces to combustible materials enable you to locate the benches more freely. The Legend stoves can be equipped with a pipe model water heater.

The Legend SL and Duo models are designed for people who want to conveniently heat their sauna from another room or outside the building. As extra equipment for the Legend stove are available smoke pipe cover and protective sheath and bedding.

The fire chamber of Legend stoves has a modern grate structure that separates the combustion air. Part of the air is directed to the upper part of the fire chamber. This way the burning is cleaner and more efficient. This grate structure also gives the stove a longer lifespan.

### Harvia Legend 150

The Harvia Legend 150 offers a comfortably moist sauna bath for a smaller sauna. The stove is a treat for the eye and for the sauna bather. The Harvia Legend 150 is equipped with a cast-iron glass door, allowing the warm glow of the fire to complement the sauna atmosphere. The adjustable legs make the stove easy to place in the sauna.

The recommended size of the sauna room is 6–13 m<sup>3</sup> and the maximum amount of stones is 120 kg.

Legend 150 SL

### Harvia Legend 240

The Harvia Legend 240 is an excellent choice for a medium-sized sauna. It is equipped with a cast-iron glass door, allowing the warm glow of the fire to complement the sauna atmosphere. The adjustable legs make the stove easy to place in the sauna.

The recommended size of the sauna room is 10–24 m<sup>3</sup> and the maximum amount of stones is 200 kg.

Legend 240 SL

Legend 240 Duo

### Harvia Legend 300

The Harvia Legend 300 gives a mighty bath for medium-sized and large saunas. The stove comes with a large and stylish steel-framed glass door. The fair-sized fire chamber can take even bigger firewood, with the maximum length of 47 cm. The adjustable legs make the stove easy to place in the sauna.

The recommended size of the sauna room is 14–28 m<sup>3</sup> and the maximum amount of stones is 260 kg.

Legend 300 Duo

## Harvia Legend stoves' extra equipment

### Legend smoke pipe cover

Legend woodburning stove can be equipped with a stone-filled smoke pipe cover. When the smoke pipe cover is used, the safety distance of the smoke pipe is made noticeably shorter, as the heat radiation is for mostly stored in the stones. The product is both elegant and practical, as water can be thrown onto a much larger area. The product can be used in all Legend woodburning stoves and with Harvia steel chimney. Stone amount ca 40 kg.

### Legend protective sheath and bedding

The tested and safe **Legend protective sheath** makes the safety distances of the stove considerably shorter. The number of protective sheath elements mounted can range from 1 to 3 as required. The protective sheaths allow the safety distance to be reduced to half on all protected sides. The product can be used with all woodburning Legend stoves. The sheath is made of black painted metal sheet. Weight 6,7 kg.

**Legend protective bedding** is made of aluminium-zinc-coated steel sheet which is painted black. The protective bedding is used, for example, when the stove is installed on a tile floor with a water barrier treatment. Weight 8,5 kg.

### Legend safety railing

The Legend safety railing is attached directly to the stove, which makes it very sturdy. The safety railing is suitable for both electric and wood-burning Legend stoves. One railing can be used to form a semi-circular double railing. In this case, you will need additional mounting brackets, which are sold separately. The safety railings are made from heat-treated aspen. The protective railings are also available with LED lights.

SASP0240/SASP0240L :850 mm  
SASP0241/SASP0241L:780 mm

Legend safety railing  
SASP0240 / SASP0241

Legend safety railing  
SASP0240L / SASP0241L

### Complete the interior of your sauna

Complete the interior of your sauna with the Legend glass door and sauna light that match the Legend stove series visually.

Legend glass doors' frames are black tinted pine and the door handle is black painted hardwood. The glass colour alternatives are: clear, bronze, smoky grey and satin. The Legend glass door is available in all standard sizes (7 x 19, 8 x 19, 9 x 19, 8 x 21 and 9 x 21). Legend door is available also with black painted aluminium frame.

Legend sauna light is black painted. Measurements 230 x 180 mm (width x height). The package includes both lamp and lamp shade. Protection level IP44, bulb E14 (max. 40 W) not included in delivery.

Legend glass door

Legend sauna light

# Harvia Duo glass wall

Light into sauna, heat into living area – in unique style

The new Harvia Duo glass wall element is simply a brilliant innovation. The glass wall is designed for use with Harvia Duo stoves and it is not only a decorative element, but a way to share light and heat between sauna and living area. Glass transfers heat into living area more and much faster than masonry.

The glass wall and stove can also be installed so that the stove door opens to terrace and the glass wall lets natural light enter the sauna.

Duo glass wall is an easy solution

- no masonry needed
- delivery includes all necessary parts, including steel sheet covering of stove's fire chamber extension
- you get the benefits of a Duo stove: the sauna stays clean of wood debris and benches can be placed as flexibly as in an electric heated sauna

The Harvia Duo glass wall is delivered either without frame or with white aluminium frame. Aluminium trim set, which finishes the installation inside the sauna with ease and style, is delivered with the frame.

**Duo glass wall is compatible with all Harvia Duo stoves**

Harvia Legend 240 Duo, Harvia Legend 300 Duo, Harvia 20 Duo, Harvia 36 Duo, Harvia Classic 220 Duo, Harvia Classic 400 Top Duo

## Technical data

Product	Product size						Glass, thickness 8 mm	
	Without frame (mm)	With aluminium frame (mm)	Frame colour	Aluminium trim set	Frame depth (mm)	Weight (kg)	Size (mm)	Colour
DL91905	820 x 1850 *	—	—	—	—	31	820 x 1820	Satin ***
DL91905AA	—	890 x 1890 **	white	x	60	39	820 x 1820	Satin ***
DL92105	820 x 2050 *	—	—	—	—	34	820 x 2020	Satin ***
DL92105AA	—	890 x 2090 **	white	x	60	43	820 x 2020	Satin ***

\* There should be a 25–35 mm gap under the glass for floor plate. The part of the floor plate that goes under the glass is designed to prevent water from entering living area. The joints should be sealed with a suitable adhesive sealant.

\*\* Size of installation opening (with frame) DL91905AA = min. 900 x 1900 mm, DL92105AA = min. 900 x 2100 mm.

\*\*\* Glass is entirely white. It does not contain iron, which makes regular glass look green in certain conditions.

# Harvia cauldrons

Harvia cauldrons are designed for heating larger amounts of water, mostly in cottage settings. They add a genuine Finnish cottage sauna atmosphere. You can choose your traditional sauna cauldron from two different models according to your water needs, either 50 or 80 litres. The durable, stainless steel inner cauldron can easily be removed for cleaning.

Thanks to the structure of the 50-litre cauldron fire chamber, the burning process is smooth and the heat is distributed directly under the inner cauldron. The water is heated up efficiently in this way. The replaceable fire chamber makes the product long-lasting. The traditional vermiculite insulation of the 80-litre cauldron keeps the outer surface cooler. The outer casing of the Harvia cauldron 50 L is made of stainless steel. The outer casing of the Harvia cauldron 80 L has been painted black. The adjustable legs make the cauldron easy to place in the sauna.

The safety distances of the cauldrons from combustible materials are 1000 mm up for both cauldrons, and to the sides and back: 250 mm for the 50 L cauldron, and 150 mm for the 80 L cauldron. The wooden floor under the cauldron must be protected by at least 60 mm of concrete or Harvia protective bedding.

# Harvia water heaters

**Pipe model water heater**

The water tank of the pipe model (22 l) is mounted directly onto the stove. The water heats up quickly because the pipe going through the tank functions as a wall of the water tank. Fits to all Harvia woodburning stoves except Harvia 50.

**Electric water heater**

Harvia's electric wall-mounted water heater is efficient and easy-to-use. It is designed for places where no hot, pressurised water is available, such as summer cottage kitchens, public rest cabins and hostels. The tank has a capacity of 27 litres. The water is heated by the heating element located at the bottom of the tank, the electrical capacity of which is 1800 W. The temperature can be regulated with the thermostat. The fuse is 10 A. The electric water heater is easy to clean.

# Harvia 10 iron stove

An iron stove is an excellent heat source for holiday houses, sauna cabins and forest cabins. It's warm on the inside and you can even use it to make a quick cup of coffee. The entire fire chamber and cooking area of Harvia 10 are made of strong cast-iron that retains heat very well. Thanks to its convenient size, it is also easy to place. The durable, cast-iron door with ceramic glass is standard equipment on the iron stove. There is a convenient storage space in the bottom of the stove. Power 6,7 kW/20–200 m³. Smoke extraction is sufficient with T450 class chimney, but we recommend T600 class Harvia steel chimney.

	Harvia 10 iron stove
Rated power kW	6,7
Heating power, air m³	20–200
Total efficiency	80 %
Dimensions (W x D x H) mm	360 x 570 x 750
Weight kg	85
Diameter of smoke outlet mm	115
Locations and distances of smoke outlet centre points mm	<ul style="list-style-type: none"> <li>• at the rear in the middle, distance from the floor 650</li> <li>• at the top in the middle, distance from the rear edge 150</li> <li>• to the sides, height from the floor 650 / 120</li> </ul>
Safety distances to combustible material structures mm	<ul style="list-style-type: none"> <li>• front surface 1000</li> <li>• side and rear surface 500</li> <li>• cooking area 1000</li> <li>• base 0</li> </ul>

# Harvia steel chimney

The Harvia steel chimney is an easy to install stylish chimney solution. The steel chimney withstands extensive changes in temperature and has mainly been designed for use with woodburning stoves, smaller fireplaces, and iron stoves in detached sauna buildings. The timeless, rounded design combined with the unpainted or black steel surface pleases the eye. The outer casing and inner tube are made out of stainless steel, which makes the product durable and allows it to maintain its appearance.

The standard delivery of the steel chimney includes a 1,5 m steel chimney (WHP1500) and a utility box with a rain cap, a rubber rain flange and an installation set for rain flange, a stainless steel lead-through flange for the ceiling and a lead-through insulation. The package also includes a 1 m long non-isolated smoke pipe. Supplementary parts of 0,5 m (WHP500) and 1,0 m (WHP1000) are available as accessories for this stainless steel chimney. Thanks to an ingenious mechanism, the supplementary parts are wound together and the smoke pipes are also equipped with slots to lock them together. This prevents movement caused by temperature changes. Indoors, the chimney can be installed up to a height of 3 meters without support and outdoors the corresponding self-supported installation height is 2 m.

The external diameter of the steel chimney is 220 mm and the diameter of the smoke pipe is 115 mm. The safety distance to inflammable materials is 100 mm. The Harvia steel chimney has a CE-marking, so the product complies with all international fire- and operational safety requirements. The steel chimney is sootfire proof. Read the instructions for installation of the steel chimney and the attached furnace carefully.

# Smoke pipes

Smoke pipes made of painted or stainless steel are available for all Harvia woodburning stoves (except for Harvia 50). Harvia's smoke pipes are CE marked.

\*) The masonry connector is connected to the flue opening and does not require other seals – easy and clean. The inner side has a seal. The masonry connector can be used in the back and upper connection.

Cross profile of the steel chimney installation

**Note! Verify the safety distances required for the furnace from the installation instructions.**

# Harvia sauna products

Harvia's broad range of products offers everything from high-quality sauna stones to buckets and ladles to sauna whisks, sauna aromas and firewood baskets.

# Harvia sauna stones

Original Harvia sauna stones have been selected with respect to the old traditions and they provide a good, hot bath. Massive, split-face sauna stones are the only proper choice for all woodburning stoves and electric heaters, because they can store lots of heat and water evaporates efficiently from the wide surface of fracture. Angular split-face stones also allow loose placement of the stones.

Harvia sauna stones are available in two sizes. Stones in the range of 10 to 15 cm are suitable for the woodburning stoves and the heat-storing heaters such Forte. Smaller sauna stones in the range of 5 to 10 cm are suitable for electric heaters.

Harvia recommends stones 10 – 15 cm in size for woodburning stoves.

## Connection openings

## The stoves safety distance from combustible materials

## Protecting the floor

1. Concrete floor without tiles. The stove can be installed on a concrete floor without any specific safety measures, if the concrete is at least 60 mm thick. Make sure that there are no wires or water pipes in the concrete cast below the stove.
2. Tile floor. The floor glues and plasters and waterproof materials used below the tiles are not resistant to the heat radiation of the stove. Protect the floor with the Harvia protective bedding or similar heat radiation protection.

## Harvia – The many stories of sauna.

The warmth of the sauna attracts us for different reasons. Sauna helps us to relax, to have a good time in good company, or simply to take a moment to ourselves. The comforting warmth of the sauna comes in many forms – in the traditional Finnish wood-heated sauna, the urban city home bathroom sauna, or the modern infrared cabin. We can enjoy sauna in summer as well as winter, in everyday life, or to celebrate special occasions. Sauna can tell many stories.

The Harvia story is unique as well. The company founded in 1950 by Tapani Harvia (1920–1998) has expanded over the decades from a small artist's forge into one of the world's leading sauna heater manufacturers and a forerunner in the sauna business. Behind the success story stands a determined and skillful inventor who forged his business idea and expertise into the shape of a sauna stove. The Harvia companies now employ 300 people. Products are exported globally.

Harvia has developed an extensive range of sauna products for the needs of different bathers. Harvia can provide everything you need in your sauna. Besides sauna heaters, Harvia manufactures saunas, sauna interiors, bathroom saunas, infrared cabins, steam generators, and sauna accessories. The company is firmly focused on product development and the challenges of the future. Harvia wishes to offer the relaxing warmth of the sauna to as many people as possible – just the way they want it.
